"Important Information for Former Military Services Members. Women and men who served in any branch of the United States Armed Forces, including Army, Navy, Marines, Coast Guard, Reserves or National Guard, may be eligible for additional benefits and services. For more information please visit the Texas Veterans Portal at <https://veterans.portal.texas.gov/>."

## MONEY MANAGEMENT TIPS

- |  |  |
|--|--|
| <p><b>01</b> Buy only the things you really need. Before going shopping, make a list of your needs and stick to it.</p> <p><b>02</b> Save up the money to buy what you need. Avoid taking out a loan or using a credit card.</p> <p><b>03</b> Shop at the thrift store and/or garage sales. Negotiate prices.</p> <p><b>04</b> Look for sales and off season bargains. Compare prices.</p> <p><b>05</b> Carefully inspect everything you buy, make sure the item is worth the money. Keep your receipts.</p> <p><b>06</b> Buy do not rent furniture. (Look for good quality used furniture, the classified ads and yard sales are great places to find gently used items at low prices.</p> <p><b>07</b> Use coupons and buy store brands at the supermarket and drugstore. (Compare prices to see what a difference this can make.)</p> <p><b>08</b> Car pool when possible. This will help save on gas.</p> <p><b>09</b> Trade baby-sitting with neighbors, friends &amp; relatives.</p> | <p><b>10</b> Go to dollar movies or rent videos.</p> <p><b>11</b> Do as much repair work as possible yourself.</p> <p><b>12</b> Buy large quantities of things you use a lot.</p> <p><b>13</b> Eat at home. Make your meals from scratch.</p> <p><b>14</b> Buy only energy efficient appliances.</p> <p><b>15</b> Shop for food at supermarkets or warehouses with a shopping list based on menus; avoid costly convenience stores. Base your menu on grocery ads to take advantage of sale items.</p> <p><b>16</b> Take your lunch to work.</p> <p><b>17</b> When you go shopping take only cash. Don't take a credit card.</p> |
|--|--|

### Safety Issues

- 01** Keep plugs in electrical outlets for children's safety.
- 02** Know where the fuse box is and how to replace burned fuses. Keep spares on hand. If you have a breaker box, learn how to reset the breaker if it trips
- 03** Use dusk-to-dawn lighting for the exterior of your home. It is not only a safety issue for walking at night but also a great burglar deterrent.
- 04** Properly light your stairways and walkways. Night-lights are invaluable.
- 05** Eliminate the use of too many extensions cords. They are easy to trip over and could be a safety hazard in terms of overloading a socket. Some rewiring of your house could be necessary.

### Heating / Cooling

- 06** Service the air conditioner, heat pump, and furnace each year. Keeping the air conditioner or heat pump serviced will result in lower operating costs. The gas furnace needs to be checked regularly for safety reasons.
- 07** If you have 2-3 window units, consider installing a central system. You may save operating money as well as be more comfortable.
- 08** If the Unit is over 15 years old, it may be cost advantageous for you to replace the system. When replacing, investigate the heat pump since this can save your heating dollars.
- 09** In the summer, try to keep your thermostat at 76-78 degrees; in the winter maintain at 70 degrees.
- 10** Replace the air filter at least once a month. A good reminder may be to change it every time you receive your electric bill.

### Kitchen

- 11** Use properly sized pans on the various sized burners of your cooktop. A small pan on a large burner adds heat to the room. Also, cook with lids on the pans to eliminate adding heat to the kitchen.
- 12** Place the refrigerator in a cool part of the room, not where the sun or heat can directly affect the operating time.
- 13** Use the dishwasher only with full loads.

### Water Heater

- 14** Set your water heater thermostat on 120 degrees. It takes less energy to heat to 120 than it does to 140 degrees.
- 15** At least once a year drain water from the bottom of your water heater. Sediment will build up on the bottom, requiring extra energy usage.
- 16** Use cold or warm water for laundry; try to eliminate hot water wash except for extremely dirty clothing.
- 17** A water leak of 1 drop per second can waste 200 gallons per month. If it is a hot water leak, it is also wasting energy usage on the water heater.

### Insulation

- 18** Add to the insulation in your attic. You want 10-12 "If your house has pier-and-beam construction, make sure the insulation under the house is still in good condition, if you have an R-19 batt installed.
- 19** Weather strip around the doors and windows, if necessary. If daylight can be seen under or around the door, energy money is being wasted here.
- 20** Check the attic to make sure it is properly ventilated to allow hot air escape.

### Miscellaneous

- 21** Vent cloth dryer to the outside.
- 22** Clean lint filter regularly-ideally with every load, realistically at least once a week.
- 23** Keep direct sunlight out in the summer, pull shades or blinds. During the winter, keep them pulled to protect from the severe cold, open shade to the sunlight during the day for the sun's warming effect.
- 24** Use as many fluorescent bulbs as possible. They last 10 times longer and us much less electricity, as well as add less heat to the air conditioned space of your home.
- 25** Payment Plan:
  - AMP - Average Monthly Payment Plan - each month you pay approximately the same amount since you are being billed for the average consumption.
  - RETIREMENT PLUS - Delays the due date of your bill until after the Social Security check is received.

**The Community Action Corporation of South Texas has provided these money management suggestions, and I have fully read and understood them.**
