KEEPING CHILDREN SAFE

Report Abuse and Neglect

Texas law requires a person having reasonable cause to believe that a child's physical or mental health or welfare has been adversely affected by abuse or neglect by any person to immediately make a report to the Texas Department of Family and Protective Services or law enforcement.

Call **800-252-5400** to make confidential reports.

Failure to report suspected abuse or neglect is a crime. Employers are prohibited from retaliating against caregivers who make reports in good faith.

Protect Children

- Never shake a baby.
- Shaken baby syndrome is the result of violently shaking a young child. Injuries can include brain swelling and damage, subdural hemorrhaging, reduced cognitive function and death.

Sudden Infant Death Syndrome

SIDS is the unexplained death of a sleeping baby.

Always place infants to sleep on their backs in a crib with a firm surface away from soft items like blankets, pillows or toys.

Keep Children Healthy

- Wash your hands and children's hands often.
- Immunize children.
- Keep ill children at home.
- Learn pediatric CPR and first aid.
- Make sure children drink plenty of water.
- Discuss special needs with caregivers.
- Learn more about childhood diabetes, which impairs a body's ability to regulate blood sugar levels, and other medical conditions, from your child's health-care provider.

Water Safety

- Always maintain active supervision and stay within reach of children in the water.
- Secure water areas with fences, alarms or other means to ensure children don't access the areas unsupervised.
- Have an emergency plan and ensure caregivers are trained in pediatric CPR.
- Don't assume children will use good judgment around the water and make safe choices.

Transportation Safety

- Use car seats and booster seats according to Texas law. All children under 8-years-old who are 4'9" or shorter must be in an appropriate child safety seat system installed according to manufacturer's instructions. Before closing car doors, make sure that arms, fingers, legs and toes are all inside to avoid accidental injury.
- Children should not be left in a car unattended for any period. Have a system in place to ensure all children have safely exited the car.
- Keep car doors locked and the keys out of children's reach.
- Educate adults and children about car and transportation safety, especially about getting in and out of a vehicle, loading and unloading curbside.
- Maintain active supervision when children are around cars.
- More information can be found at: <https://www.dps.texas.gov/section/media-and-communications-office/child-passenger-safety-information>

FOOTNOTES

RV* Administering a third dose at age 6 months depends on the brand of Hib or rotavirus vaccine used for previous dose.

COVID-19** Number of doses recommended depends on your child's age and type of COVID-19 vaccine used.

Flu+ Two doses given at least 4 weeks apart are recommended for children age 6 months through 8 years of age who are getting an influenza (flu) vaccine for the first time and for some other children in this age group.

HepA[†] Two doses of Hep A vaccine are needed for lasting protection. The 2 doses should be given between age 12 and 23 months. Both doses should be separated by at least 6 months. Children 2 years and older who have not received 2 doses of Hep A should complete the series.

ADDITIONAL INFORMATION
1. If your child misses a shot recommended for their age, talk to your child's doctor as soon as possible to see when the missed shot can be given.
2. If your child has any medical conditions that put them at risk for infection (e.g., sickle cell, HIV infection, cochlear implants) or is traveling outside the United States, talk to your child's doctor about additional vaccines that they may need.

Talk with your child's doctor if you have questions about any shot recommended for your child.
